Summary

I study Computer Science and Engineering as an Undergrad at one of the most reputed Engineering Institute in our Country (India), IIT Roorkee.

I love working with units. As an example, I led the team MSG, and we made it amongst TOP 10 teams in Syntax-Error 2019 hackathon.

I believe in People Bonding as it helps in many stages of life.

Experience

Srishti 2020

Mars IIT Roorkee

Nov 2019 - Present (6 months +)

Srishti is a National Level Engineering Project-based Exhibition Organised by MARS IIT Roorkee

Education

Indian Institute of Technology, Roorkee

Bachelor's degree, Computer Science

2019 - 2023

Licenses & Certifications

Online Hackathon Festival - Indian Institute of Technology, Kanpur

Machine Learning Intermediate level - Kaggle

Honors & Awards

3rd Runner-Up - Maa Bharti Sr. Secondary School

We made the Home Automation System using Arduino UNO and Bluetooth Module for Science Exhibition.

I led the Team.

Skills

React.js • Machine Learning • Java • Programming • JavaScript • Arduino IDE • Python (Programming Language) • HTML • Cascading Style Sheets (CSS) • c++
